

*Enjoy a new level of purposeful ease with our range of automation systems and power options. From the wirefree convenience of DC or Li-ion motors to the power of voice control operation, motorized window coverings are a solid solution for advanced yet simple light control and well connected design.*

#### FEATURES:

- **new** Updated USB bridge features auto scanning to simplify pairing.
- A wide range of motor and power options provide endless solutions for whole-home automation. A reliable 2-way radio connection ensures real-time monitoring of the motor's battery life and shade's status.
- The USB bridge supports seamless integration with third party automation systems like Control4 to allow for a well connected smart home.
- The magnetic charging kit makes charging effortless and convenient to use. No more fiddling around trying to get the charger into the charging port.
- Say goodbye to batteries with state-of-the-art lithium-ion rechargeable batteries that can last up to 500 up/down cycles on a single charge.
- Gain ultimate control using features like timers and scenes each set to any need, at home or away, from the companion app.
